Summary

Artificial Intelligence graduate and full-stack developer with hands-on experience building and deploying full-stack applications. Skilled in **React**, **Node.js**, **Express**, **MySQL**, **MongoDB**, and **REST APIs**, with experience in secure authentication, **Docker**, **CI/CD**, and AI-powered application workflows.

Education

Bachelor of Science in Artificial Intelligence

Aug 2022 – June 2026

FAST National University of Computer and Emerging Sciences (NUCES), Karachi

Technical Skills

Languages	JavaScript, TypeScript, Python, C/C++, Java, SQL, HTML/CSS, JSON
Frontend	React, Redux Toolkit, Vite, Tailwind CSS
Backend	Node.js, Express, FastAPI, REST APIs
Databases	MySQL, MongoDB, PostgreSQL, SQL
Authentication	JWT, OTP Verification, Protected Routes
AI/Automation	Multi-Agent LLM Applications, Web Scraping, Structured Data Pipelines
Tools	Git, GitHub Actions, Postman, Docker, MongoDB Atlas, CI/CD

Experience

Freelance Full-Stack Developer

2023 – Present

- Developed and deployed full-stack web applications using React, Node.js, Express, MongoDB, and SQL.
- Built secure authentication systems with JWT, OTP verification, and role-based access control.
- Designed REST APIs, managed databases, and handled deployment and maintenance of production applications.

Projects

MedVerses — Medical Test Preparation Platform

Live: www.medverses.com

- Built and deployed a medical QBank platform using React, Redux Toolkit, Node.js, Express, and MySQL.
- Developed custom tests, timed exams, answer tracking, flagged questions, explanations, review mode, notes, and performance analytics.
- Implemented JWT authentication, bcrypt password hashing, OTP verification, password reset, protected routes, and role-based access control.
- Created an admin dashboard for managing users, subscriptions, payments, analytics, and account status.
- Added SQL migrations, database backups, Dockerized infrastructure, and GitHub Actions CI/CD.

Full-Stack E-Commerce Platform

Live: www.subifyhub.com

- Built and deployed a full-stack e-commerce platform using React, Node.js, and Express.
- Integrated MongoDB database with REST APIs for product, category, and user management.
- Implemented role-based access control for admin and user workflows, including an admin dashboard.
- Developed secure JWT authentication with OTP email verification and protected routes.
- Added search, filtering, validation, and error handling to improve usability and API reliability.
- Managed deployment and database operations for the live application.

ShopBuddy — XAI Shopping Assistant (Multi-Agent LLM App)

- Built a multi-agent shopping assistant using React, FastAPI, PostgreSQL, and structured data pipelines.
- Developed web scrapers and REST APIs for product comparison, filtering, and recommendation workflows.
- Processed 100+ products and generated structured results for explainable recommendations.

Achievements

- Selected for **DevExpo 2024 (University Open House)** for a project recognized among top finalists for functionality and design.
